Dear First Name:

Congratulations on your graduation! AIA Houston, Texas Society of Architects (TSA), and the American Institute of Architects (AIA) would like to help you celebrate this milestone by offering you **free membership** for the next year and a half – through December 2010. As the local chapter of AIA, AIA Houston is the organization through which you will meet local architects and associate with other interns and those studying for exams. We have a myriad of programs and events throughout the year, some of which will surely interest you. Associate membership provides an excellent opportunity for you to expand your professional network, stay informed about the latest architecture news, and take advantage of resources such as ARE prep courses and study groups we have at the Architecture Center that will help you as you work towards licensure. Join today and you will begin to receive our eNewsletter, *AIA Friday*, invitations to events, and information of interest to Houston architects.

AIA membership gives you access to resources at the local, state, and national level. Working together, all three levels of the AIA offer numerous benefits to members. These benefits include:

- Award-winning publications such as *Architectural Record*, *Texas Architect*, and *AIA/J*, the AIA Journal of Architecture
- Free access to the Emerging Professionals Companion, the AIA's online tool developed to help associate members earn up to one year of credit towards IDP
- Networking opportunities at society events and through volunteer committees
- Access to online job banks

Experience these and all of the other benefits the AIA has to offer – at the local, state, and national level – by taking advantage of this free membership offer. If you have any questions about AIA Houston or the attached application, feel free to contact the AIA Houston staff at 713-520-0155 or mat@aiahouston.org. You can also find additional information at <http://www.aia.org/about/memberservices/AIAS077102>. I wish you all the best in your future career in architecture.

Sincerely,

Dan Bankhead, AIA
2009 President
