on the Environment**

FREE ART SUPPLIES

AIA COTE would appreciate your participation in a program to re-cycle product samples as art material for student projects. The Houston AIA Committee On The Environment is constantly looking for ways protect the environment. Architectural and Interior Design offices, as well as our product vendors, are continually updating their product libraries and product lines. Rather than these excess and outdated materials going to a landfill, we collect and distribute these materials to teachers for use in their student art projects. Product samples may consist of the following:

- Carpet samples (books and large samples)
- Fabric samples
- Wall covering samples
- Flooring samples (VCT, ceramic, vinyl, linoleum, wood, cork, etc.)
- Plastic Laminate samples
- Paint samples
- Glass samples
- Other appropriate samples (no individual items over 2 pounds)

This is our tenth collection/distribution event and to date we have provided **over 38,000 pounds of materials** for Houston area student's art projects.

We welcome all Fine Arts Teachers to pick up samples on:

*February 9, 2013
9:00 AM to 10:00 AM*

At the:

Green Building Resource Center

1002 Washington Avenue
Houston, TX 77002
832-394-9050

Visit

<http://www.codegreenhouston.org/about-the-center/index.php> for a map.

The building is located on Washington Ave. to the east of Houston Ave. and next to the Amtrak Station. This is also the Houston Permitting Center. There is plenty of free parking.

All materials are on a first-come first-serve basis and they go fast.
