Citizen Schools mobilizes a team to enable public middle schools in low-income communities to provide an expanded learning day, rich with opportunities.

Our deep partnerships with schools put young adults on track to succeed by connecting the resources of communities, companies, governments, and philanthropies.

We witness the impact of these connections at the end of each semester, during celebrations of student learning called WOWs. And evaluations show lasting transformation:

- better attendance, better grades, new skills, and transformed aspirations in middle school
- high-school graduation rate increased by 20%
- triple the odds of earning a college degree

Join us, and together we’ll close the gaps between Americans born into poverty and those rich with opportunities. Between schools and their potential. Between students and their future.
