

As part of the Women in Architecture exhibit, opening in October 2014, we would like to include personal statements from women in architecture (architects, interns & students).

Format: 6 " x 6" card ; content may be graphic and/ or text.

Cards will give each person's viewpoint, contribution, observations, dreams or ambitions relative to their position in architecture/ the practice of architecture/ the study of architecture. In other words: What do you want to say about architecture?
